

PRODUCT DATA SHEET

SLP groove planer for L-profile
Item no. 1463

Status: 02.08.2026 | 13:55

Designation	SLP groove planer for L-profile
Description	PROTEKTOR groove planer for SLP soffit panels made of EPS 14630, 14631 and 14632. For creating a dimensionally accurate groove for the L-profile 37463 as a connection to components such as windows and doors.
Product area	Interior finishing
Product category	Tools
Application Areas	Auxiliary tool for precise grooving, suitable for use with L-profile 37463 in SLP rebate plates made of EPS.
Underground	The cutting edge intended for the groove must be flat and straight to ensure precise guidance through the groove plane.
Treatment	The groove planer is set firmly to the edge distance specified for the L-profile 37463 and the required groove depth. The groove planer must be guided along the flat cutting edge with even, light pressure. Depending on requirements, several passes may be necessary to achieve the required groove depth.
Tool Cleaning	The groove planer should be cleaned regularly to remove dust and dirt in order to maintain a sharp groove.
Security Advice	Wear personal protective equipment.
Customs tariff number	82055910
Opened label	Purchase only possible as full packaging units.
