

# PRODUCT DATA SHEET

Screed peg PVC  
6,0 mm  
Item no. 3940

Status: 31.07.2026 | 21:49

|                         |                                                                                                                                                                                                                                                                                        |
|-------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Designation             | Screed peg PVC 6,0 mm                                                                                                                                                                                                                                                                  |
| Description             | The PROTEKTOR screed dowels offer sheer force dowel fastening in screed and reduce possible height offset. The low-friction elastic polymer coating enables insertion into the screed and movement absorption.                                                                         |
| Product area            | Concrete / Screed                                                                                                                                                                                                                                                                      |
| Product category        | Joint profiles                                                                                                                                                                                                                                                                         |
| Customs tariff number   | 39162000                                                                                                                                                                                                                                                                               |
| Processing instructions | The screed dowels offer sheer force dowel fastening in screed and reduce possible height offset. The low-friction elastic polymer coating enables insertion into the screed and movement absorption. The dowels are installed horizontally, at a right angle in relation to the joint. |
| Opened label            | Purchase only possible as full packaging units.                                                                                                                                                                                                                                        |

| Item number | Length (cm) | Material                           | Colour     | Packaging unit   |
